

duux®

DESIGNED FOR BETTER AIR

Stay comfortable this
winter with Duux.

Breathe life into your home.

Duux has been the specialist in air treatment for twenty years. We believe in the importance of a clean and healthy living environment for everyone. Our products ensure healthy and comfortable indoor air, all year round. Pleasant to breathe and good for your health! With eye-catching designs, Duux products blend perfectly into any interior. Pure Dutch Design with international appeal: our products are currently available in more than 30 countries.

The importance of healthy air

We improve your health through air! A healthy lifestyle immediately makes you think of enough exercise and a healthy diet. But did you know that many health problems are related to poor air quality? On average, we spend 90% of our time indoors, where the air quality is up to five times worse than outdoors. Complaints such as fatigue, headaches, dry skin, colds and concentration problems are often due to poor indoor air quality. And when you consider that you breathe 20,000 times a day, it is indeed important to pay attention to air quality.

INDOOR AIR QUALITY IS
5 TIMES MORE
POLLUTED THAN OUTSIDE

Beam 2

SMART ULTRASONIC HUMIDIFIER

The smart and powerful humidifier with minimal footprint

Dry air can affect your well-being. Beam 2, the ultrasonic humidifier with minimal footprint, has your back. Its minimalistic design offers ease of use and suits any decor. Performance-wise, Beam 2 has a 5-liter water tank and mist output of 350 ml per hour, for the most comfortable air quality.

Performance that impresses

With an ultrasonic mist output of 350 ml per hour, Beam 2 improves indoor climates like no other. The 5-liter water tank operates up to 25 hours in rooms up to 40 m², while the self-regulating, adjustable hygrostat offers a humidity between 40 to 90%. And with less than 35dB, Beam 2 is extremely quiet.

Features and specifications

LED display

Indicator for water refill

Integrated remote control

1-8h timer modes

350ml/h mist output

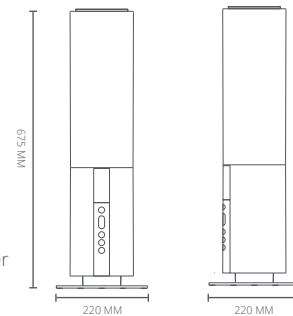

Adjustable hygrostat

Top filling

Anti-scale & antibacterial filter

Beam Mini 2

SMART ULTRASONIC HUMIDIFIER

The smart and powerful humidifier with minimal footprint

Dry air can affect your well-being. Beam Mini 2, the ultrasonic humidifier with minimal footprint, has your back. Its minimalistic design offers ease of use and suits any decor. Performance-wise, Beam Mini 2 has a 3-liter water tank and mist output of 300 ml per hour, for the most comfortable air quality.

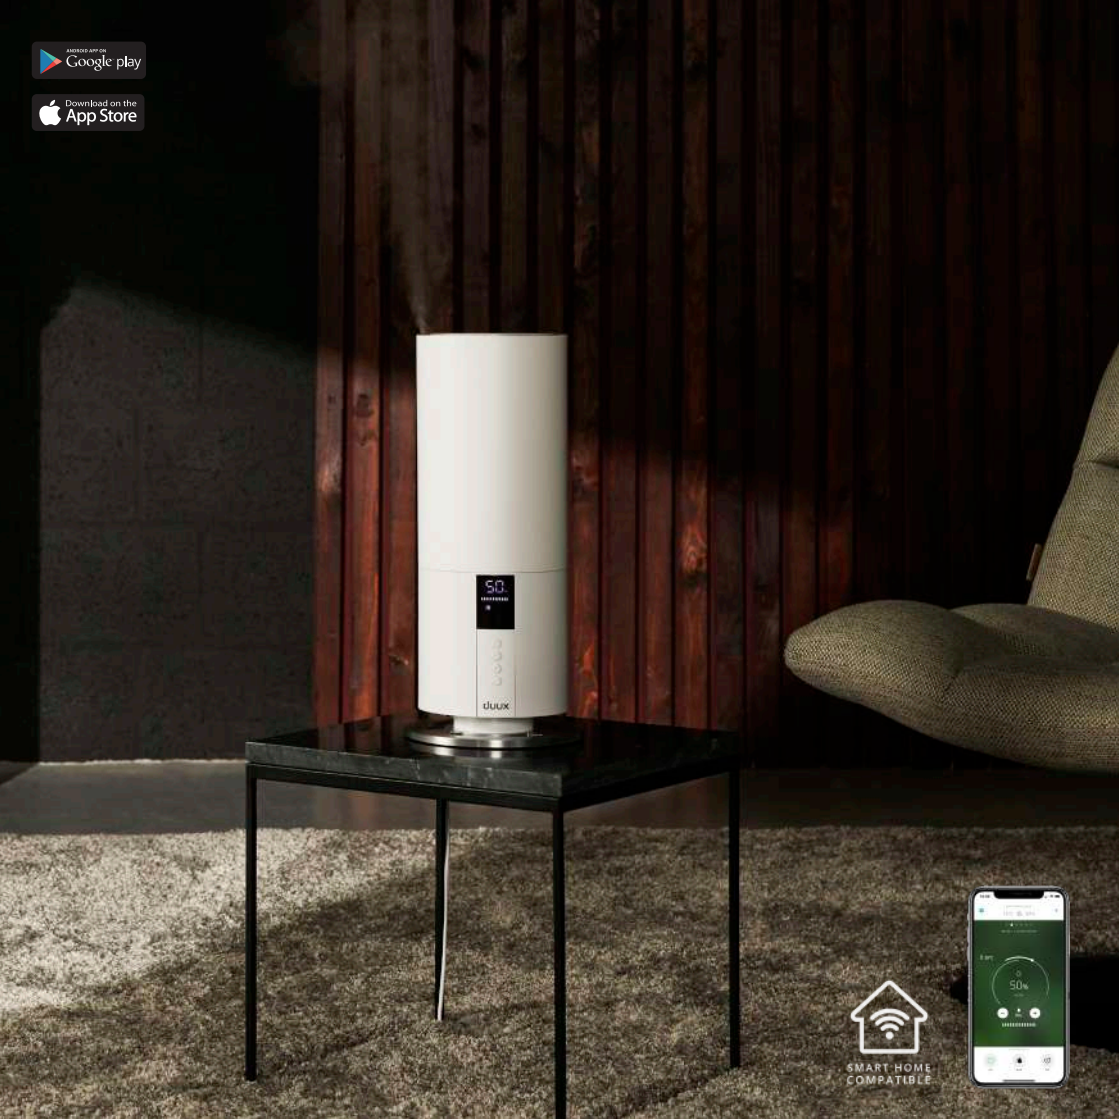

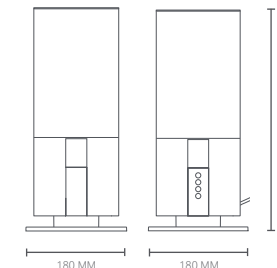

- 3L WATER TANK CAPACITY
- 30m² EFFECTIVE AREA
- 20h OPERATION TIME

Performance that impresses

With an ultrasonic mist output of 300 ml per hour, Beam Mini 2 improves indoor climates like no other. Ultrasonic technology

Ovi

EVAPORATIVE
HUMIDIFIER

The self-regulating humidifier with a stunning design

As autumn and winter descend upon us, it's time to turn up the central heating. Time to create a cosy home, nice and pleasantly warm. But the dry air in your home can lead to colds and fatigue. It can even affect your concentration. Ovi is the solution: this cold-water vaporiser creates the humidity you need in a natural way. That will surely get you through those long winter days!

Easy to top-up

Filling Ovi is just as easy as watering your plants. In fact, it's exactly the same process. No need to remove the reservoir, and no need to walk back and forth to the tap. Ovi only blows pure air and clean mist into your living space. The filter effectively traps lime scale and bacteria.

Features and specifications

Self regulating evaporation

PET + Nylon filter

200ml/h mist output

Top filling

Indicator for water refill

Suitable for aromatherapy

Motion

AIR WASHER

The supreme 2-in-1 indoor climate controller

Motion cleans and humidifies the air at the same time. With its many features, Motion effectively improves your indoor climate by increasing humidity and removing airborne particles. It offers a large, 4-liter water tank, operating area of up to 40m², LED matrix display and convenient touch controls.

Maximum performance, minimal consumption

Motion offers maximum performance with minimal energy consumption. It keeps your home healthy thanks to its 250 ml mist output per hour, and operates up to 12 hours without refilling the tank. Unwanted odors? The carbon filter extracts them, while the disc filters capture dust particles and pollen.

Threesixty 2

SMART CERAMIC
HEATER

The 360° heater that lets you cozy up in no time

Meet your companion for cold winter days: Threesixty 2. This handy heater has an organic design and a capacity of 1800 watt, making it surprisingly powerful for its compact size. The built-in fan accelerates the heating process and warms up rooms twice as fast. And operating it is easy: just use the Duux app!

Efficient heating in all directions

With 3 heating settings (max. 1800 watt) and 2 ventilation settings (eco and boost), Threesixty 2 is a diverse heater. In boost mode, it can heat up a room of 30m² twice as fast as conventional heaters, thanks to its efficient PTC heating element. The air outlet makes sure the heat is evenly distributed in 360 degrees.

Bora

SMART DEHUMIDIFIER

The stylish climate controller that deals with excessive humidity

Bora is a stylish dehumidifier that creates the perfect climate for any room, like your attic or basement. Its compressor draws in air and extracts moisture from it, which is caught in a 4-liter water tank. Bora comes with a built-in hygrostat and carbon filter and is easy to operate with the Duux app.

Efficient moisture extraction

In 24 hours, Bora extracts up to 20 liters of moisture from the air. Its water tank has a capacity of 4 liters, or you can connect a hose for continuous drainage. To ensure clean air, the carbon filter extracts gasses, smoke and odors. Bora uses an eco-friendly R290-refrigerant and has a self-cleaning mode so it can be put away safe and dry.

Features and specifications

LED display

Timer modes

Integrated hygrostat

Self-cleaning mode

Auto defrost

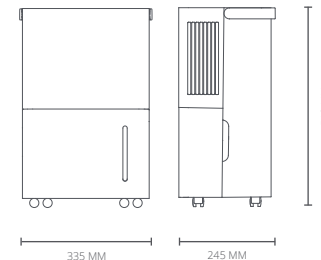

Continuous drain hose

Activated carbon filter

Pop-up handle & caster wheels

Tube

SMART AIR
PURIFIER

The smart air purifier that breathes clean air

Appearance matters. That's why Tube is not only extremely powerful, but also an eyecatcher in any room. Its capacity of 550m³ per hour Clean Air Delivery Rate enables it to clean the air in a room of up to 75m² in just 20 minutes. The Duux Smart app ensures easy operation – or simply use the buttons.

Looking after your health

Thanks to its PM2.5 sensor, Tube turns on automatically when the air quality is poor. It has 3 speeds and a 1 to 8-hour timer mode, shutting down automatically according to your wishes. Its ionizer can be operated separately, and the filter lifespan indicator alerts you when the filter needs replacing.

Features and specifications

LCD display

PM2.5 sensor

Air quality indication

Filter replacement indicator

Triple stage filtration

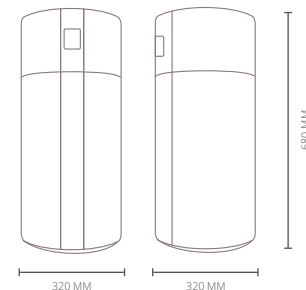

Humidity and temperature indication

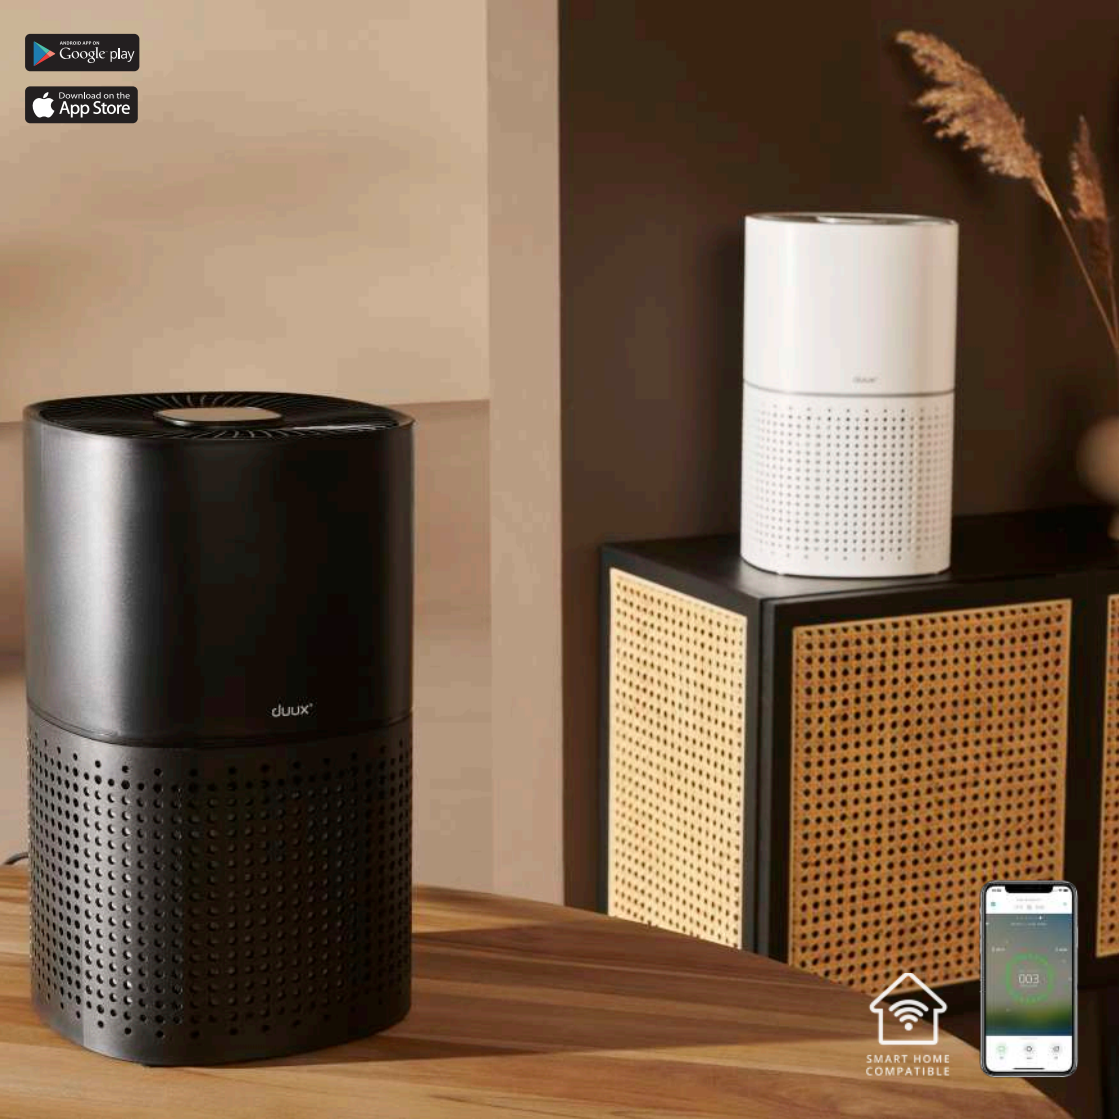

3 speed settings

1, 2, 4 and 8h timer modes

Bright

SMART AIR PURIFIER

Breathe in,
the future is Bright.

Walking, driving, biking, you are constantly surrounded by the invisible enemy: air pollution. Until you cross your doorstep and breathe: clean, pure, Bright. The all new Bright Smart Air Purifier captures 99.97% of impurities, helping even the worst asthma and allergy sufferers. Stylishly compact and portable, it connects to the free Duux Smart app.

Sphere

AIR PURIFIER

Your personal air purifier

Keep your personal surroundings clean and save space in style: that is what Sphere is all about. The built-in ionizer releases negative ions into the air to capture tiny particles and pull them into the HEPA filter to produce clean air. The activated carbon also removes harmful gasses and unpleasant smells like tobacco smoke.
